EXPERIENCE

Frontend Developer Trainee – Project Based Training

Coding Samurai | April 2026 – May 2026

- Developed multiple frontend projects: Weather App, Simon Game, To-Do Application, and Responsive Landing Page.
- Built responsive, user-friendly interfaces using HTML5, CSS3, and JavaScript.
- Implemented DOM manipulation, REST API integration, and dynamic UI updates.

PROJECTS

Weather App

Fetches real-time weather data via API; users can search cities for temperature, humidity, and conditions.

Tech: HTML | CSS | JavaScript | API

Live Demo: - <https://indrajeetprajapati.github.io/Weather-App/>

Multi-Category E-Commerce Platform

Responsive online marketplace showcasing electronics, clothes, shoes, and groceries using a clean product card layout.

Tech: HTML | CSS | Responsive Design

Live Demo: - <https://indrajeetprajapati.github.io/Multi-Category-E-Commerce-Platform/>

Simon Game

Inter active game with dynamic color sequences, user input validation, and increasing difficulty levels.

Tech: HTML | CSS | JavaScript

Live Demo: - <https://indrajeetprajapati.github.io/Simon-Game/>

Responsive Landing Page

Modern landing page with smooth navigation, animations, and seamless scross-device experience.

Tech: HTML | CSS | JavaScript

Live Demo: - <https://indrajeetprajapati.github.io/Responsive-Landing-Page/>

To-Do Application

Dynamic task manager with creation, deletion, completion tracking, and real-time DOM updates.

Tech: HTML | CSS | JavaScript

Live Demo: - <https://indrajeetprajapati.github.io/ToDo-Application/>
